

JONAH MACKIE

Major:

Accounting & Information Systems, Minor in Business Analytics

Career Path:

Undecided, interested in many fields, especially nonprofit

Technical Background:

Proficient in excel and most of Microsoft office suite. Currently learning Blackbaud's Raiser's Edge NXT and Financial Edge NXT, which are SQL database softwares for nonprofits.

Non-Technical Information:

My hometown is Boise, Idaho. I chose UNR because of the active campus community, proximity to Tahoe (I love to ski), and to go to a school in a new place where I didn't know anyone. In my free time I exercise, play the piano, and participate in just about every outdoor activity you can think of. In the summers I work as a wildland firefighter which is how I pay for school and justify spending too much time in the woods. I like all kinds of music, especially house, country, and bluegrass. My favorite movie is O Brother, Where Art Thou, and I dream of having a meaningful administrative position at a company that does good in the world. I also want to be very well-traveled as I believe seeing the world improves your perspective on life.
